

ENVIRONMENTAL PURCHASING POLICY

- Our procurement policy is oriented towards local, environmentally friendly, fair trade and efficient purchasing.
- Our business aims to work with sustainable suppliers that have Quality Assurance Management Systems, Environmental and Occupational Health and Safety Management Systems and sustainability labels/certifications, as well as environmental policies and practices to meet our raw material and service needs.
- Purchasing of consumables and disposable goods, including food, is carefully managed to minimize waste. Preference is given to goods that can be reused, returned and recycled.
- When sourcing products, preference is given to environmentally certified products and suppliers.
- Threatened and endangered species are not used.
- When purchasing goods and services, our business prioritizes local/regional suppliers that are available and of sufficient quality.
- We try to create efficient purchasing opportunities together with our suppliers and aim to reduce the environmental impacts arising from procurement processes.
